SUGGESTED LOCAL SPELLING BEE RULES

1. Students will draw a number when they register, and this will determine “the order of spelling”. Words will be given in the order that they appear in the Kentucky Pronouncer’s Guide for the spelling bee.
2. Late arrivals must be registered before round two begins, or they will not be admitted into the spelling bee.
3. Words will be pronounced according to the diacritical markings in the fourth edition of the American Heritage Dictionary.
4. In competition, after the pronouncer gives the contestant a word, the contestant will be encouraged to pronounce the word before spelling it and after spelling it.
5. The contestant may ask the pronouncer to say the word again, define it and/or use it in a sentence. Language of origin is also available for some of the words upon request.
6. Having started to spell a word, a contestant may stop and start over, retracing the spelling from the beginning, but in retracing there can be no change of letters or their sequence from those first pronounced. If letters or their sequence are changed in the respelling, the speller will be eliminated.
7. The contest shall be conducted in rounds. Each contestant remaining in the spelling bee at the start of a round shall spell one word in the round.
8. Upon missing the spelling of a word, a contestant immediately drops out of the contest, except as provided in Rule 9. The next word is given to the next contestant.
9. This rule addresses the procedures that should be followed at the end of a spelling bee. This may not be the same as the procedure followed at your local school bee.
 - A. If none of the contestants remaining in the bee at the start of a round spells a word correctly during the round, all shall remain in the competition.
 - B. If only one of the contestants remaining in the bee at the start of a round spells a word correctly during that round, that contestant shall be declared the winner. Once the winner has been declared, a “spell down” will be conducted among the contestants in that round to determine the other place winners.
10. Any question relating to the spelling of a word should be referred to the designated official immediately in writing on the official appeal form. Appeals may be filed by a parent, legal guardian, or teacher of the speller who is seeking reinstatement into the contest. No appeals may be filed to try to eliminate another speller from the competition.
11. The judges are in complete control of the spelling bee. Their decision shall be final on all questions.

Learning to spell can be very difficult, but there are some basic rules that can help you. Just remember, there are exceptions to rules!

Learn the *i* before *e* rhyme:

Put *i* before *e* (examples: belief, yield, frieze)

Except after *c* (examples: receive, conceit)

Or when it sounds like *a* (examples: eight, freight, weight)

As in neighbor or neigh

If there is a final *e* when adding a suffix or verb ending:

If the suffix or verb ending begins with a vowel, drop the final *e*.

Examples: change + ing = changing

festive + ity = festivity

If the suffix or verb ending begins with a consonant, keep the final *e*.

Examples: measure + ment = measurement

definite + ly = definitely

use + ful = useful

To add a suffix or verb ending when a word ends in *y*:

If the word has a consonant before the *y*, change the *y* to *i*.

Examples: mercy + less = merciless

carry + ed = carried

If the word has a vowel before the *y*, keep the *y*.

Example: employ + ed = employed

The letter *q* in a word is followed by a *u*.

Examples: relinquish

equation

quality

Double final consonants when adding suffixes:

The final consonant of a word is often doubled when adding -ed, -ing, -er, -est. Double final **b, d, g, l, m, n, p, r** and **t** at the end of words.

Examples: sob - sobbing

swim - swimming

pot - potted

mad - madder

win - winner

transfer - transferred

big - biggest

hop - hopping

Words of more than one syllable have their consonants doubled only when the final syllable is stressed:

If the word is one syllable or is stressed on the last syllable and has a single final consonant, and that single final consonant is preceded by a single vowel and the suffix begins with a vowel, then double the final consonant.

Example: patrol + ing

The stress is on the last syllable. - trol

There is a single final consonant. - l

The final consonant has a vowel before it. - o

The suffix, **ing**, begins with a vowel.

Therefore, you double the **l** before adding the suffix.

patrolling

Example: market + ed

The stress is on the first syllable - **mar** - not the last.

Therefore, you do not double the final consonant.

marketed

The spelling of a word does not change when you add a prefix to it even when the first letter of the word and the last letter of the prefix are the same.

Examples: mis + step = misstep

pre + eminent = preeminent

un + necessary = unnecessary

Plural nouns:

Most words simply add **s** for the plural. In words that end in **ss**, **sh**, **ch** or **x**, add **es**.

Example: **switch = switches**

In words that have a consonant before a final **y**, change the **y** to **i** before adding **es**.

Example: **summary = summaries**

Most nouns ending in **f** or **fe** add **s**. However, some change the **f** to **v** and add **s** or **es**. **There is no rule to follow here.**

Examples: **belief = beliefs**
 half = halves

Some nouns ending in **o** add **s**. However, some add **es**. **There is no rule to follow here.**

Examples: **studio = studios; potato = potatoes; echo = echoes;**
 hero = heroes; cargo = cargoes; piano = pianos;
 kangaroo = kangaroos

Sometimes words have silent letters.

Examples: **gn, pn, kn = n**
 gnome pneumonia knife

Examples: **rh, wr = r**
 rhyme wrestle

Examples: **pt, ght = t**
 ptomaine height

Examples: **ps, sc = s**
 psalm science

Example: **wh = h**
 whole

Memorizing rules is nice, but there are other good ways to learn spelling.

There are exceptions to most rules, so it's important to learn other strategies too. Try to break words into syllables. Look for prefixes, suffixes, and roots. Practice each short part and then the whole word. Break the word apart, then compare it to other words you know. Find patterns among words to help you learn spelling.

Examples:

un-ac-com-mo-dat-ed

pol-y-gen-e-sis

col-lo-qui-al-ism

chro-ma-tog-ra-phy

***Incidentally* and *coincidentally* have similar spellings.**

***February* and *library* both have a hard-to-hear *r* after the *b*.**

Mnemonics (pronounced with a silent **m** at the beginning) are little memory aids you can use to remember how to spell words. For example, you can remember that *dessert* is richer, so it has the double s. A *desert* is vast and empty, so only ones. You can remember that there are three **e**'s in *cemetery* because cemeteries are "ee"rie. Does it help you to spell *separate* by remembering there is "a rat" in the middle? Try to think of mnemonic devices for words you have trouble remembering how to spell.

Now you are ready to begin studying words for your spelling bee.

IMPORTANT: Start with the words in this book, but **use other sources as well, such as the dictionary**, to find words to learn. Remember, **the words for the county and state spelling bees are taken from the dictionary** and are not limited to those in this booklet.

Grouping words by word origin can help you recognize and memorize certain spelling patterns.
